13 Common Questions After Breast Cancer Surgery

Many people have questions about recovering from breast cancer surgery.

Will I get lymphedema and how will I know if I have it?

Should I avoid venipuncture in my arm after surgery?

Is there anything I can put on my incision to make it heal faster?

When do I need another mammogram?

What should I be looking for? Is there anything I should call my doctor about?

Are there any specific foods or supplements I should now take?

Is it OK to exercise after surgery?

How long will the numbness in the affecting arm and axilla last after lymph node dissection?

Should I have opted for "more" surgery, such as a mastectomy or a bilateral mastectomy?

What should I tell my family members about their breast cancer risk?

This is general information. If you have specific questions about your surgery, please talk to your care team.
