At first, we will look at the ...

Intro

Published in Blackwood's Magazine in 3 parts. The novella is a critique of the European colonial rule in Africa.

One of the passengers, Charles Marlow tells his fellow passengers an experience of his that took place on The Congo River in Africa

Marlow had heard about The 'Company' running a Colonial enterprise in the Belgian Congo. Marlow soon got appointed as the Captain of a river steamer & he sets out for Africa

Marlow witnesses the evil of imperialism in Africa He encounters inefficiency & brutality in the Company's stations. The native people of Africa have been forced into the Company's service. They suffer from overwork and ill-treatment

Marlow arrives at the central station run by the general manager. He hears of a man named Kurtz, a colonial agent who is unmatched in his ability to procure ivory from the continent's interior

Kurtz gives Marlow a packet of personal documents, including a pamphlet on civilizing the savages which ends with a message - 'Exterminate all the brutes'

Imperialism : European colonization of Asian & African countries for resources. Kurtz was in Congo for ivory trade but he tried to civilize the natives, Marlow sees scenes of torture, cruelty & slavery in the Company's Stations

Madness because of Colonization: The novella shows colonization is not only a curse to the colonized people but also a curse to colonizers.

Moral Corruption: Kurtz became the top agent by robbing the locals off their treasure & exporting ivory. He is engaged in corrupt practices of punishing those who oppose him. Marlow sees other agents doing the same.

Human Greed: Colonization is an act of human greed. Marlow says he has seen the devil of greed' which refers to the ivory trade at the expense of the native Africans' freedom and life.

intro

on sizing, one of the most important lessons

sensible trader never risks more than 2% on any trade

who the average trader is , a farmer or engineer

all traders are betting on future mood of crowd

you must not change your plan when in mid trade, tie yourself to the mast of your trading plan

technical analysis is measure trader emotional behavior, job is to find when buyers are strong and when running out of steam

how bears grow confident and media highlight bears until buyer spike price shock, bear and bull divergences

buying the dip, deadcat bounces, buying a dip vs buying a dog

supply in stock, losers feel pain and cant wait to get out once stock rises to break even

recency bias, recent memory, eager to chase or panic out

volume shows interest at prices

get in long right away vs waiting for a dip, riskwise

for trendlines when charting bars or candlesticks, body is more important than tails to reveal market vs panic liquidations

trend lines support are not made of glass but are more like fences that can bend and be test

open interest show new buyers entering when rising, or old buyers leaving

triple screen trading method
