Three Answers to the Question What Is Philosophy?

Philosophy is like a party that started over 2,500 years ago and is still going strong. When you take a philosophy class, you're invited to join this party; but walking into a party 2,500 years late can feel a little awkward. This book is meant to solve that problem. The best way to feel welcome is to focus on how funny philosophy is, simply because its ideals are so high that humans almost never manage to reach them. This book gives three answers to the question "What is philosophy?" (1) Philosophy is a conversation that has been going on for over 2,500 years which has been full of comedy from the beginning and will continue to be funny forever if we do it right. (2) Philosophy is a very awkward business that has always been on the verge of going out of business. (3) Philosophy is something that makes almost everyone write very badly. In addition to this three-act comedy the book also contains two practical guides to being happy and successful in philosophy classes.

Three Questions by a Christian and Their Answers

Was the Holy Prophet of Islam in any doubt about his Prophethood? Were any miracles shown by him? Did he possess the knowledge of the Unseen? These and some other questions are answered in this book, by Hazrat Mirza Ghulam Ahmad, the Promised Messiah and Mahdi(as), founder of the Ahmadiyya Muslim Jama'at. The Author corrects the miss-interpretation of the verses of the Holy Quran, spread by the detractors of Islam. He describes in detail the genesis of miracles, in the light of the Miracle of the Holy Quran, and repudiates the aspersions cast on Islam, through strong arguments and pertinent examples from the Gospels. A must read for the seeker after truth.

Questions Communicated by Lord Overstone to the Decimal Coinage Commissioners, with Answers

A Bible student reference A New Testament prophecy of a falling away from truth into apostasy and lawlessness, in the final generation before Jesus Christ returns in glory, is being fulfilled now and is shortly to end. Yet Christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this – or that Christ's return is therefore now almost upon us! How and why this is the case is here explained thoroughly and logically with many examples directly from the word of God. In God's saving plan for the world, everyone must in time make a free will choice to become part of the 'Israel of God' in order to access eternal life in the kingdom of God. The route to take is the "strait and narrow" way (Mat 7:13-14) that very few have so far found, and it involves the biblical new and old covenants which both apply to this Israel. Embark on this voyage only if you are willing to: be challenged about some basic Christian preconceptions, be a serious open-minded Bible student, and trust what the Bible teaches - but remember that time is short. "What the Bible has taught me I see as both vital and urgent for our eternal salvation; yet I know of no church or individual theologian who teaches what this book deals with in any substantive way" "Be prepared for major challenges to your understanding just as God has challenged me." "In the epistles, Paul refers to two Israels whom he calls Israel after the flesh (I Cor 10:18) and the Israel of God (Gal 6:16); I focus mainly on the latter (but I also explain an unexpected but critically important connection between them)" "Dependent on the teaching, nearly all Christian denominations either teach nothing at all on it or almost the opposite of what Scripture repeatedly showed me. Looking back, I find this absolutely staggering!" "Very few [Christians] understand that the new covenant also only applies to Israel (as I will clearly show)." "I no longer believe that the NT [New Testament] can be fully understood without this extra Israel dimension" "Had I felt I could deliver this in a more light-hearted way I would have done so, but its implications are too awesome and fundamental to our eternal life prospects for that"

Israel and the Covenants in New Testament Times

Almost since the beginning of the republic, America's rigorous separation of powers among Executive, Legislative, and Judicial Branches has been umpired by the federal judiciary. It may seem surprising, then, that many otherwise ordinary cases are not decided in court even when they include allegations that the President, or Congress, has violated a law or the Constitution itself. Most of these orphan cases are shunned by the judiciary simply because they have foreign policy aspects. In refusing to address the issues involved, judges indicate that judicial review, like politics, should stop at the water's edge--and foreign policy managers find it convenient to agree! Thomas Franck, however, maintains that when courts invoke the "political question" doctrine to justify such reticence, they evade a constitutional duty. In his view, whether the government has acted constitutionally in sending men and women to die in foreign battles is just as appropriate an issue for a court to decide as whether property has been taken without due process. In this revisionist work, Franck proposes ways to subject the conduct of foreign policy to the rule of law without compromising either judicial integrity or the national interest. By examining the historical origins of the separation of powers in the American constitutional tradition, with comparative reference to the practices of judiciaries in other federal systems, he broadens and enriches discussions of an important national issue that has particular significance for critical debate about the "imperial presidency."
