### Gray Matter

A perfect blend of medical drama and spiritual insight, Gray Matter is a fascinating account of Dr. David Levy's decision to begin asking his patients if he could pray for them before surgery. Some are thrilled. Some are skeptical. Some are hostile, and some are quite literally transformed by the request. Each chapter focuses on a specific case, opening with a detailed description of the patient's diagnosis and the procedure that will need to be performed, followed by the prayer "request." From there, readers get to look over Dr. Levy's shoulder as he performs the operation, and then we wait—right alongside Dr. Levy, the patients, and their families—to see the final results. Dr. Levy's musings on what successful and unsuccessful surgical results imply about God, faith, and the power of prayer are honest and insightful. As we watch him come to his ultimate conclusion that no matter what the results of the procedure are, "God is good," we cannot help but be truly moved and inspired.

### Surgery of the Soul

This book exposes the whole panorama of healing. I am a testimony of it. It exposes the counterfeit realms and it shows that it is only through Jesus that salvation and healing comes. It is definitely training and equipping book for the supernatural realms of the Kingdom of God. It starts with the fundamental issue of salvation. It exposes the Kingdom of God in the market place. Specifically in the medical field. Most of my patients are not saved. I believe that there is a spiritual revolution invading the medical field. We need to be absolutely clear about who Jesus is and the absolute need to lead people into salvation everywhere including the medical office. There is a transferable healing anointing. I have already met with doctors in Ecuador, was at Yale University with Randy Clark and Francis Macnutt and I will be teaching on November 1st and 2nd, 2008 at St. Francis Hospital Nsambya in Uganda, Africa. So this book is part of the revolution to transform the medical field, to bring the Kingdom of God into the medical office, hospitals, and universities. Again it exposes and equips the reader to the

whole panorama of healing: Salvation, Holy Spirit, Physical Healing, Inner Healing, Deliverance, Holy Visitations, and Impartation.

### Paul Faber, Surgeon

Dave Walker was an ambitious anesthesiologist, determined to be the best in his field. Yet it was only when he had an encounter with the living Christ and started praying with his patients, that he witnessed healing far beyond what medicine alone could provide. As you read, you will walk with him through his first encounter with a dead man, witness the drama of rescuing a young man stabbed in the heart, share his alarm and fervent prayer as the hands and feet of a young woman turn blue, then black while she battles septicemia. You will hear the praise of an exuberant crowd prayer walking through a prison, and feel the contemptuous scowl of a man in "solitary". You will sit with him with men from a homeless shelter and hear their stories of how Jesus saves. You will share in the power of prayer to rescue a man in ICU from multiple organ failure and marvel at the work of God through a young woman condemned to die. In this gripping account of the intervention of a loving God who brings healing in the lives of those we pray for, you will find yourself encouraged, edified and challenged. Above all, you will see the hand of God moving through the power of prayer. This is a story to inspire believers and encourage doubters.

### Whispers of Healing

Dr Dave Walker was a successful anesthesiologist with a special interest in the Intensive Care Unit (ICU). Disillusioned with God after a series of tragedies, he lived for himself and his work; but something was wrong: Though he was seeing people healed physically, their lives were not changed and it all seemed pointless. This set him on a quest to find a God who does not look on impersonally from a distance, as he thought, but is intimately involved in our lives. After a dramatic encounter, he started praying with his patients. Suddenly things happened beyond anything he could have imagined as God intervened in response to prayer. In the meantime Dave was facing his own personal trials which tested his faith to the limit. Set firstly in a South Africa transitioning into democracy from apartheid and then in the Muslim world of the Middle East, God in the ICU will take you into the drama of critical care medicine, the inner life of a praying, caring physician and above all, the response of a faithful, loving God to the prayers of his people. Told with transparency, compassion and an honest look at the lessons we can learn from His dealings with us, you will be encouraged to trust a God who is as close as a prayer away.

### Prayer, Medicine and Miracles

Why another book on prayer? After all, there is already a plethora of information and books on prayer. Through the years, I have been bombarded with prayer books, prayer seminars, prayer workshops, instructions on prayer walking, prayer mapping, the 10/40 window--the list is endless. Although I could see tremendous value in the truths contained in all this material, only a handful of people in my church were responding to the prayer concepts put forward. Why was this? This question would eventually lead me to change the way I think and feel about prayer, and eventually write what you will read in this book. A skilled surgeon will take a surgical instrument, like a scalpel, and use it carefully and deliberately in

the service of healing. That same scalpel in unskilled hands could cause untold injury and damage. Prayer, just like the smart bomb, when directed with purpose and intent, will always hit the mark, just as the scalpel in the hand of a surgeon will bring about precise and intended results.

### How to Save a Surgeon

The author, an eminent Harvard and Tufts professor and surgeon, tells of his conversion experience--the profound, inexpressibly joyous and mystical awareness of God's presence that deepened his faith and transformed him in the process.

### God in the ICU

We love being well and enjoying life, but in every life there comes a time when the certainties of tomorrow fade away in the anguish of today's reality. We get sick, face surgery and therapy and worry. Facing Surgery with Christ is the product of a cancer surgeon's experience with the spiritual needs of his patients.

### Surgical Prayer

Dr. Jerold Beeve hadn't uttered a serious prayer for more than 20 years. But when an anniversary vacation to Fiji turned into a long-term mission project, that all changed. A highly experienced ophthalmologist, Dr. Beeve was horrified by the lack of eye care in Fiji that allowed many even children to become unnecessarily blind. He and his wife, Dorothy, immediately made plans set up a clinic on the island. But how could they afford all the additional equipment and its transportation? Could they rely on the IRS to approve their 501(c)3 request at the last minute? And would the United States ambassador to Fiji ever answer his phone? Just when Dr. Beeve began to question his calling, he decided to pray. Within days everything fell into place with perfect precision. That was only the beginning. When the irreplaceable instrument needed for surgery broke, when an emergency caused siblings Beni and Sally to require prompt attention in the States, when Dorothy lay hours away from death th

### Discovering the Center

"Dr Dave Walker was used to handling major surgery and the follow-up into ICU. But something was wrong. More than mere physical healing he wanted to see his patients' lives changed. Then God broke into his life and he started praying with his patients. Suddenly things happened he never could have imagined. Enter the drama of high-tech medicine, the inner life of a concerned doctor and above all, the intervention of a loving, caring God."--Back cover.

### Facing Surgery with Christ

Dr. John Gerard Gallucci believes true healing occurs by allowing the energy of God and the Holy Spirit to run through him and into those to be healed. In his pediatric surgery practice, he heals through the Holy Spirit every day. In *My Life with God*, he presents a compilation of against-all-odds spiritually and metaphysically-based true stories that demonstrate how God and the spirit move in and work through our lives. Gallucci offers a supernatural journey of healing the heart, mind, body, and soul. He shares the essence of what it means to live and work in a spiritual-metaphysical world of healing while rendering gold standard surgical care to premature infants, babies, and children. Each true story illustrates what can be accomplished by allowing God's river of love and light to flow regardless of how difficult some challenges may seem or how improbable finding a silver lining on the darkest cloud may appear. In *My Life with God*, Gallucci shows how if you see others with the eyes of your heart and offer them love and compassion, you will render true healing.

### Praying with My Eyes Wide Open

One moment in time can change everything. The Surgeon came out and told me that he was not going to lie to me, but Joe's condition was extremely critical. He said that he would do what he could do, but did not know if Joe would make it through the surgery. He then told me that he would need God to direct his hands. The Surgeon's note on 03/02/1999 read like this: "It is remarkable and a miracle that he is awake."

### God in the ICU

Order is more important than intentions. Even in the face of the greatest intentions, chaos will impede any progress. The Prayer Counselor is essential in providing appropriate guidance to God's people towards restoration at his altars. I am a Surgeon by trade. The operating suite must be orchestrated appropriately for the patient to have an expected outcome. The patients have already demonstrated submission by allowing themselves to be wheeled into the operating room. After submission there must be precise execution by all members of the operating team. The altar visitors have submitted themselves to an even greater degree by their public display of approaching the altar. As a surgeon, I accept the lead role in the surgical suite, but everyone involved in the care of the patient must be in the right place at the right time for the patient to have the expected outcome. While at the altar, the leader of the altar call must be allowed to flow in the perfect will of God without being distracted by tasks that should be delegated to others. The Prayer Counselor will assist the Men and Women of God in providing the appropriate atmosphere that will bring God's people into his perfect will. ### My Life with God

This is about my journey with pseudo tumor cerebri, also known as IIH. When I was diagnosed with this disease, I lost everything. With nothing, my journey was long and hard, but with prayer I was able to make it. I will be a survivor because of it, too.

IVP Readers' Choice Award Do you ever find yourself stuck in the comparison trap? Speaker and author Richella Parham knows what this feels like. "I couldn't break free from admiring one person's achievements, someone else's personality, another's skills, yet another's relationships. And don't get me started on how I looked at other people's appearances," she writes. "I was haunted by the admirable attributes of other people, certain that I could never match their worthiness. No matter how well-intentioned the teaching or pithy the advice, I found that most of it didn't help me change my thoughts, feelings, or actions." While there are no easy answers, Parham has identified cultural and spiritual myths about others, God, and ourselves that keep us trapped. From there the journey is a spiritual one. We can pick up practices that help us walk in the freedom of Christ with confidence in ourselves. If you've ever suffered from tortured moments of comparison on Facebook, in the office, or in the hallway at church, you'll benefit from this fresh perspective.

### Compounded Faith

Second in the Wingfold Trilogy following Thomas Wingfold Curate from one of the greatest writers of Victorian-era Scotland. A country doctor in the fictional city of Glaston, atheist Paul Faber, encountering spiritually invigorated minister Wingfold, finds himself unexpectedly drawn into his own unwelcome quest for truth. Now it is Wingfold—assisted by Polwarth—sharing his newfound faith with both Paul

Faber and Juliet Meredith, whose past secrets draw them together yet also threaten to tear them apart. Michael Phillips comments, "Of MacDonald's unique characters, one stands alone—Paul Faber, the surgeon of fictional Glaston. He is the only skeptic, unbeliever, and atheist to take the spotlight as a featured title character. The relationship between Thomas Wingfold, the curate, and his atheist friend . . . gives us a vivid picture of George MacDonald's perspective on how the life of Christ is most effectively communicated into an unbelieving world . . . It is conveyed by the way Christians live."

#### Doctor Johnson's Prayers

#### The Life of William Hey, Esq. F. R. S.

"I am a doctor." Every year, thousands of medical school graduates utter these four simple words. But as you will see in *Playing God*, earning an M.D. is just the first step to becoming a real physician. In this page-turning, thrilling, and moving memoir, Dr. Anthony Youn reveals that the true metamorphosis from student to doctor occurs not in medical school but in the formative years of residency training and early practice. It is only through actually saving and losing patients, taking on the medical establishment, wrestling with financial and emotional survival, and fighting for patients' lives that a young doctor becomes a mature and competent physician. Dr. Youn takes you from the operating rooms of a university surgery residency program to the gleaming offices of top Beverly Hills plastic surgeons to opening the doors of his empty clinic as a new doctor with no money, no patients, and mountains of debt. *Playing God* leaves you with an unexpected answer to that profound question: "What does it mean to be a doctor?" In *Playing God*, you will take a journey through the world of surgery, hospitals, and the practice of medicine unlike any that you have traveled before.

#### Praying for the Surgeon

Paused momentarily in our garden to ponder a monarch butterfly, I began thinking about the word metamorphosis. Now at seventy years, it seemed my whole life had been a metamorphosis. It means

change in form. The more I thought about it, the more I realized the wonderful design and the grandeur of which leaves one speechless. That butterfly was created by the Great Designer, our God. Can you see the metamorphosis in your own life? My occupation just didn't happen by chance. My faith in Jesus Christ as my Lord and Savior was providential ordained, not chance. The greatest metamorphosis in our lives will come at its end, and if one is not a believer in Christ, the mystery will play itself out in eternity. It is my prayer and purpose to labor in the fields ripe for harvest and take you with me when I cross that Jordan River. No one else may be praying for you but having been where you are, we will together journey the metamorphosis of God's world. "Ye must be born again" (John 3:3)!

#### Mythical Me

Clifton Kirkpatrick, stated clerk of the general assembly, Presbyterian Church (U.S.A.), said the following about *Where Is God Not?*: In many ways this book is an important reminder to all of us that 'We are not alone' It is certainly a reminder that we are not alone when we engage in Christian mission. *Where Is God Not?* is a ringing tribute to God's work through Presbyterian world mission, through our missionaries, and through our Christian partners in India. This is the true story of how, against all odds, God's grace and mercy enable faithful Christians to do things that would never be possible without the strength of a power beyond ourselves.
