Welcome Josh!

Can you expand on that and on what brings us to this point where we begin kind of creating filler in all of our writing.

Did you find that these approaches were kind of met with any resistance? What kind of turnaround time did it take to start seeing these results when applying them?

How does a professional newsletter or aspiring professional newsletter writer, kind of fix that habit, and change the way they write?

What would you say to writers who are capable of writing concisely but are scared they won't be taken seriously, if they deviate from this societal norm?

Do you think that long-form writing even has a place in today's on-the-go society? And do you think that we're headed more and more towards a change to more concision in writing?

Right, but no one thinks of their own writing that way, right?

Is there a danger of being too no bullshit in a corporate setting? Are we as employees conditioned for a certain amount of both?

What do you think about trends like white papers, which are starting to take over and have been increasingly becoming more popular? What are your thoughts there?

Do you think the obsession with objectivity in media, particularly the news media can lead to both

sides is on the approach that can actually have a reverse effect on the audience- make it harder to understand what's true and what's not?

Given the candidates, do you have any thoughts about the current situation and how that lack of concision might impact voters?

Do you think that subconsciously, whether vocally or in print, do you think that readers sort of subconsciously pick that up, that the pronouns being used are communicating sort of a different message?

You talk about using "I, we and you" in professional communications as a plus, right?

You have some strong opinions about the third-person bio. Can you tell me a little bit about why?

Who are the biggest offenders in using weasel words company-wide like business-wise? And who is the opposite? Who's your favorite as far as clarity and direct communication?

So what would be your main three ways to cut out the bullshit for our writing audience?

All right, the ROM method. Yes. Well is there anything else that you're working on these days?

A Mother's Circle

This updated version of "A Mother's Circle" chronicles the experiences of nine new mothers in a parenting discussion group led by Jean Kunhardt and Lisa Spiegel. "A Mother's Circle is informative and reassuring," writes Miriam Arond, Editor-in Chief of Child Magazine. "It will help you feel confident and supported, qualities that are so important in helping you enjoy this wonderful new stage of your life." The revised edition covers important topics such as feeding, separation and attachment, marriage, co-parenting and a woman's identity. The first chapter defines Responsive Parenting, a thoughtful approach that allows parents to make more finely-tuned responses to their baby's needs, whether it is setting a limit or nurturing and coddling. The expanded chapter on Sleep includes a Sleep Chart to help parents track the progress their babies in learning to sleep through the night.

A Mother's Circle

A mothers circle is an intimate gathering where women find compassion, validation, and acceptance through sharing their stories and experiences with other mothers who can truly offer understanding and support. These days, mothers have all but lost the networks that were organically put in place in early cultures. They say it takes a village to raise a child, and this was certain. It also takes a village to initiate and support a woman into motherhood, but not all mothers have access to a village. The mothers in this book all found themselves seeking support that was simply not there... at least, not in the form of a sisterhood, a circle that would hear them and hold them as they moved through the challenges and joys of motherhood. They share their personal motherhood stories to gift hope, healing, empowerment, and inspiration to other mothers who do not have a circle to hold them. This foundational volume of Mothers Circle sets the stage for a movement to empower mothers through the most natural mode of connection- stories. As we share our struggles and our triumphs, mother to mother, we bring ourselves together and call in others who need the sisterhood of aligned souls walking beside them on their motherhood journeys. Mamas, this is the birth of YOUR sacred village.

Mothers Circle

Avon has compiled a varied list of books that focus on issues and concerns for women everywhere -- from notable fiction to detailed healthcare guides.

A Mother's Circle

Are you struggling to figure out who you are now that you're a mama? Do you feel like you're coming last in your own life? Do you feel guilty for not loving every moment of this motherhood gig? As someone who used to put themselves last-doing everything she thought was 'right' for her children and family, but not really listening to what her body and her spirit was begging for-Amy understands first-hand the overwhelm and complex range of emotions that mothers face. Amy's background as a journalist set her on the path to uncover all that she could about the latest research on matrescence, the transition a woman undergoes when she becomes a mother. She now shares what she's learned in the hope that it will help you navigate this stage of your life. Happy Mama includes interviews with experts, case studies and Amy's own tried-and-tested advice on how to reconnect with the woman you are underneath all that washing, cleaning and caring. Full of useful and empowering insights that will help you change the way you feel about motherhood-and yourself-so you and your whole family can flourish.

The Mothers' Group

Do you personally believe in internal bonding between mum and her baby? The joys of motherhood is imbedded in having children to call your own, seeing these children playing around you all the time, and taking care of them until they become mature enough to take care of themselves and ultimately take care of you as a mother. In the same vein, the importance of mothers in the lives of kids cannot be undermined. This circle of life is unavoidable when it comes to motherhood. And all these summarizes Baby's story. Here, she espouses the myriad of issues and challenges faced by her mother and herself even before the earth welcomed her home. The moments of happiness, stress, distress, contempt, trauma, and pains her mother went through in the process that led to her birth. Here, baby paints a vivid picture of the relationship between her mother and her, the very first step that started their journey together as mother and child. Baby's story creates a dynamics, and how perfect the relationship between two generations could be. The bond baby shared with her mother is evident in every form of conversation and dialogue; and one could possibly mistake them for siblings under an oath of eternal bond. As the relationship grew, as the dialogue got intense, and as time grew the duo became the major subject matter in pockets of discussion that emanated around the neighborhood. To see the possibility of this considering the age at which Baby and her mother existed where mothers are more attached to their professions and careers than to their families and kids one would least expect any contrary break from the norm that would not only challenge the status quo but also gain acceptance as though it is new idea that narrowly gain entrance into the world stage; whereas it is as old s time itself. Basically Baby's story awakened an idea that would eventually cause a lasting revolution in family, societal values and upholding development. The book describes (from the position of baby) the state of baby and mum during each stage of pregnancy period up to the birth. Specifically, the "Hey, mum" is a deep-feeling story, that depicts mum`s moments of happiness and stress, how it is reflected on baby. Author indicates on the strong bond between baby and mum. Sometimes, baby advises mum how to behave, which people to avoid, sometimes baby cry and complain. This is an essential guide for every mother to understand all the peculiarities of childbearing, for instance, how mum should calm down baby and how baby make first signals to mum. And others little and great moments of truth for mum and baby during the pregnancy. "Hey, Mum" represents the constant inbound dialogue between baby and her mother. It is fascinating and wonderful adventure, soft story with instructive insights for future mums in order to make them out of any anxiety and show them how to think with their babies in one way.

Mothers

Over half of all American Jewish children are being raised by intermarried parents. This demographic group will have a tremendous impact on American Judaism as it is lived and practiced in the coming decades. To date, however, in both academic studies about Judaism and in the popular imagination, such children and their parents remain marginal. Jennifer A. Thompson takes a different approach. In *Jewish on Their Own Terms*, she tells the stories of intermarried couples, the rabbis and other Jewish educators who work with them, and the conflicting public conversations about intermarriage among American Jews. Thompson notes that in the dominant Jewish cultural narrative, intermarriage symbolizes individualism and assimilation. Talking about intermarriage allows American Jews to discuss their anxieties about remaining distinctively Jewish despite their success in assimilating into American culture. In contrast, Thompson uses ethnography to describe the compelling concerns of all of these parties and places their anxieties firmly within the context of American religious culture and morality.

She explains how American and traditional Jewish gender roles converge to put non-Jewish women in charge of raising Jewish children. Interfaith couples are like other Americans in often harboring contradictory notions of individual autonomy, universal religious truths, and obligations to family and history. Focusing on the lived experiences of these families, *Jewish on Their Own Terms* provides a complex and insightful portrait of intermarried couples and the new forms of American Judaism that they are constructing.

The Mother's Magazine and Family Circle

This refreshingly candid parenting book puts mothers—not children—center stage. Ann Pleshette Murphy provides a reassuring, wise, and often wildly funny mix of anecdotes and advice as she describes the seismic shifts in women's lives and identities from pregnancy through a child's graduation. She draws on countless conversations with mothers and with child development experts she has met as the parenting contributor to *Good Morning America* and as the former editor-in-chief of *Parents* magazine. The mother of two, Murphy freely shares her own trials and errors in stories that will have readers laughing in relief and recognition. Written with wit, warmth, and unfailing empathy, *The 7 Stages of Motherhood* is an exuberant and indispensable guide to making the most of motherhood. Words of Wisdom for Every Stage of Motherhood _ Forget the "mothering comes naturally" myth: And don't be afraid to ask for help _ Avoid keeping up with the Joneses: Give your kids what they need, not everything they want. _ Know when you're in the wrong movie: Don't try to cast your kids in a remake of your childhood. _ Give yourself credit for finding Lego Man's hair: Little acts of caring matter more to your kids than getting through your to-do list _ Be a mother, not Mother Teresa: When you neglect your own needs, you shortchange your kids

The Mother's Magazine and Family Circle

In *Mothers Unite!*, a bold and hopeful new rallying cry for changing the relationship between home and the workplace, Jocelyn Elise Crowley envisions a genuine, universal world of workplace flexibility that helps mothers who stay at home, those who work part time, and those who work full time balance their commitments to their jobs and their families. Achieving this goal, she argues, will require a broad-based

movement that harnesses the energy of existing organizations of mothers that already support workplace flexibility in their own ways. Crowley examines the efforts of five diverse national mothers' organizations: Mocha Moms, which aims to assist mothers of color; Mothers of Preschoolers (MOPS), which stresses the promotion of Christian values; Mothers & More, which emphasizes support for those moving in and out of the paid workforce; MomsRising, which focuses on online political advocacy; and the National Association of Mothers' Centers (NAMC), which highlights community-based networking. After providing an engaging and detailed account of the history, membership profiles, strategies, and successes of each of these organizations, Crowley suggests actions that will allow greater workplace flexibility to become a viable reality and points to many opportunities to promote intergroup mobilization and unite mothers once and for all.

The Fourth Trimester

In the last two decades, maternal scholarship has grown exponentially. Despite this, however, there are still numerous areas which remain under-researched, one of which is the experiences of marginalised mothers. Far from being a sentimental, feel-good account of mothering, this collection speaks with the voices of mothers through the application of a matricentric lens. In particular, it speaks with the voices of those mothers who feel alienated or stigmatised; mothers who have been rendered ...

Mothers Unite!

In Round the Circle, author Julie Brill gathers the wisdom of twenty-three established doulas who generously share what they've learned along the way, including Laurel Wilson and Tracy Wilson Peters, authors of The Attachment Pregnancy, Rivka Cymbalist, author of The Birth Conspiracy Natural Birth, Hospitals, and Doulas: A Guide, and Amy Wright Glenn, author of Birth, Breath, and Death: Meditations on Motherhood, Chaplaincy, and Life as a Doula. Learn more about addressing fears mothers may have; encouraging the motherbaby bond; supporting religious and spiritual practices; working with orthodox Jewish families, LGBTQ families, teen mothers, surrogates, immigrants, and incarcerated moms; the pros and cons of attending the births of friends/family members; issues related to becoming personal friends with your clients; the doula's role in planned and unexpected homebirths and cesarean births; supporting the family after the birth; building and marketing your doula business; and doula self-care. Intended to be a mentoring tool, Round the Circle will prove interesting and helpful reading for anyone considering becoming a doula and for those already practicing.

Davis is a mother, grandmother, great-grandmother, community "othermother" and maternal activist. She is also an educator and advocate for community literacy development, and is committed to the cultural, social, intellectual, and economic uplift of Africana people.

The Mothers' Group

From the author of "Prayers on My Pillow" comes a special book that helps mothers and their teenage daughters foster a deep, loving bond. By sharing experiences from raising her own teenage daughters, as well as perceptive insights from other mothers and daughters, Straus provides a touchstone to bridge the divide.

The Heroines Club

Mothers at the Margins

The research is clear: since the beginning of womankind, mothering has been a communal effort. Mothers of the Village offers practical ideas on how to build meaningful and satisfying connections to create the essential community all mothers need.

Round the Circle

This book, now in its Third Edition, is revised as per the feedback received from our valuable students and readers. It is exclusively prepared for the students who wish to appear for campus recruitment screening test and graduate/post graduate students appearing for various competitive examinations in Quantitative Aptitude and Reasoning. The main objective of this volume is to guide the students to solve the problems within the stipulated time and that too with the higher degree of accuracy. Organized in two parts—Quantitative Aptitude (Part I) and Reasoning (Part II)—it helps students to apply basic mathematical and reasoning concepts to a range of quantitative and reasoning problems. The separate sections are devoted to verbal and nonverbal reasoning. It sharpens the ability to apply analytical and logical thinking while gathering and analysing information, designing and testing solutions to problems, and formulating plans. This book is a valuable resource for conducting training programmes/workshops to train students in problem solving techniques in Mathematical Aptitude. It would equally be useful to the candidates appearing for quantitative aptitude and reasoning test conducted in various competitive examinations of graduate level. **NEW TO THIS EDITION** • Numerous Reasoning questions (with explanatory answers) asked in recent placement tests and competitive exams • New topics on • Four figure series • Choosing one element of a similarly related pair • Choosing set of similarly related figures • Detecting one element of each of the two related pair • Detecting the relationship and choosing the correct substitute • Choosing the odd figure • Choosing a similar figure • Rule 4 [(i) and (ii)] in Rule detection

Something for Mother

Sheryl Sandberg's *Lean In* is a massive cultural phenomenon and its title has become an instant catchphrase for empowering women. The book soared to the top of bestseller lists internationally, igniting global conversations about women and ambition. Sandberg packed theatres, dominated opinion pages, appeared on every major television show and on the cover of *Time* magazine, and sparked ferocious debate about women and leadership. Ask most women whether they have the right to equality at work and the answer will be a resounding yes, but ask the same women whether they'd feel confident asking for a raise, a promotion, or equal pay, and some reticence creeps in. The statistics, although an improvement on previous decades, are certainly not in women's favour – of 197 heads of state, only twenty-two are women. Women hold just 20 percent of seats in parliaments globally, and in the world of big business, a meagre eighteen of the Fortune 500 CEOs are women. In *Lean In*, Sheryl

Sandberg – Facebook COO and one of Fortune magazine's Most Powerful Women in Business – draws on her own experience of working in some of the world's most successful businesses and looks at what women can do to help themselves, and make the small changes in their life that can effect change on a more universal scale.

Jalimusa: An Epic Tale of Black Motherhood

Alan Tansley's *Bold, Brash and Brave* follows the progress of three brothers over the twentieth century, with their personalities explored throughout the text. Beginning in the summer of 1912, the book tells the story of the brothers' experiences in the armed forces. From their familiar comfort of the farm, the brothers navigate their way through the trauma and danger of the war. With extensive reference to farming and mining from a true Yorkshire-man, *Bold, Brash and Brave* explores the brothers' development; the text also carries a strong theme of history and genealogy throughout, and the importance of family.

The Catholic Reading Circle Review

What Our Mothers Could Have Told Us is a heartfelt memoir of self-discovery through motherhood based on the author's experience in conceiving, delivering, and raising triplets while working full-time and completing her PhD. If that wasn't enough, migration was thrown into the picture wherein the family had to, in essence, start over in a new country with a fresh set of challenges. Being a parent is no easy feat, but a woman's journey to motherhood begins even before the birth of her child, and this book is an ode to a mother's selfless love. It showcases a woman's journey and growth as a mother and how she reinvents herself out of necessity and to remain relevant. Full of wisdom, this book covers what isn't necessarily always talked about openly—fertility problems, breastfeeding, and post-partum depression. It also spans the full breadth of motherhood from tackling the struggles of parenting toddlers and teenagers to making a full circle when they eventually fly the coop. Parenting is a unique experience for every individual, but this book will resonate with you and inspire you on your journey of motherhood.

The Mother-daughter Circle

Under a likeness of President Theodore Roosevelt in the Library of Congress, a plaque lists the Pure Food and Drink Law of 1906 as one of the three landmark achievements of his administration. Few authorities would disagree. Designed to ensure the safety of foods, drinks and drugs, the law was one of the first pieces of social legislation enacted in the United States. Among the most enthusiastic and persistent crusaders for the bill's passage were a wide array of women's groups, many politically active for the first time. Based in large part on primary sources, this work examines the many groups involved in the passage of the Pure Food and Drink Law and how their work affected American society. Part One examines the origins of the movement and why women became so involved. Part Two focuses on the primary groups involved in the law's passage, such as the National Woman's Christian Temperance Union and the General Federation of Women's Clubs. How it was that such diverse groups rallied around this issue is also explored. The industrial and political opposition to the law and how the crusaders overcame it is covered in Part Three, along with details on how the law's proponents were able to pressure the U.S. Congress into passing it and how they worked to see it fully implemented.

Catholic Reading Circle Review

In the world of extensive diagnosed conditions or disorders, the behaviour remains one of the most misunderstood and incorrectly treated illnesses today. The author, Kerry is passionate about helping parents facing overwhelm and chaos. She wants to help families to become empowered and to grow beyond what they know right now. Be reassured you're not alone; this author knows the experience of being the frustrated parent, searching for answers and finding more questions. *Going full Circle* provides new tools and recommendations on parenting any child, with mental, physical or behavioural challenges. This book gives a framework and practical tips for how you can manage and advocate for your child in different settings. The message is delivered to readers to inspire positive thinking about their child's diagnosis. Also, to raise awareness and to be a valuable guide that gives hope to the whole family. This book will take you on a journey of transformation, to change your unresourceful behaviours and patterns. There are many sceptics among us; doctors say one thing our family tells us something different. Learn about what is important during these times of struggle. Save the family by becoming the change you all need so desperately. Save time and learn ways to improve tomorrow. Kerry is a fiercely motivated mother who left no stone unturned in discovering the underlying reasons for her

son's everyday challenges. Put an end to many parenting problems. Learn to parent without guilt, fear or anxiety. End the many conflicts in your home and create close and connected relationships with each family member. It's reassuring to know you are not alone. As a creative life coach, mother and aspiring specialised small business champion, she writes about topics relevant for all families. The parenting strategies offer progressive thinking for parents raising neurodiverse kids today. The circle began with a dream so long ago, along the way the vision changed and then started to disappear in the chaos, the turning point was taking responsibility for her son's future. The circle included a path to Kerry's self-discovery. This book closes the circle. Dreams can come true we just need to revise the one we had. Parents can become the hero of their child's future.

The Orthodox Jewish Wedding Planner

An insatiable need for sex and love. Periods of overeating or starving. A pattern of unstable and painful relationships. Does this sound painfully familiar? Trauma counselor Kelly McDaniel has seen these traits over and over in clients who feel trapped in cycles of harmful behaviors-and are unable to stop. Many of us find ourselves stuck in unhealthy habits simply because we don't see a better way. With *Mother Hunger*, McDaniel helps women break the cycle of destructive behavior by taking a fresh look at childhood trauma and its lasting impact. In doing so, she destigmatizes the shame that comes with being under-mothered and misdiagnosed. McDaniel offers a healing path with powerful tools that include therapeutic interventions and lifestyle changes in service to healthy relationships. The constant search for mother love can be a lifelong emotional burden, but healing begins with knowing and naming what we are missing. McDaniel is the first clinician to identify *Mother Hunger*, which demystifies the search for love and provides the compass that each woman needs to end the struggle with achy, lonely emptiness, and come home to herself.

Told me he loved me while we were sitting on his mother's couch

He said it so special like he'd never say those words to anybody else

He said the right things at the right time

'Cause he knew that I would die for it

He was so cool and cruel at the same time

He could do no wrong in my eyes

'Cause I was the groupie

And he was the star

I knew them by my heart

And I was the fan girl

At front of the show
Pointing the spotlight
'Cause he didn't know me
'Cause once you've got a groupie
You've got 'em for life
He'd always swing by after 9
And we'd stay up talking 'til 5
And we watched the movies that he liked
He said the right things at the right time
'Cause he knew that I would die for it
He was so cool and cruel at the same time
He could do no wrong in my eyes

'Cause I was the groupie
And he was the star
I knew all his stories
And I was the fan girl
At the front of the show
Pointing the spotlight
That he didn't know
'Cause he didn't know me
Yeah he didn't try
'Cause once you've got a groupie
You've got 'em for life
For life, for life, for life, for life
For life, for life, for life
The louder I screamed
The less that you heard
I'm sorry I lip synced to all of your words

Was I even a number
Or just another
Girl in the crowd
I was the groupie
And he was the star
I knew all his stories
They pull at my heart
I was the fan girl
Pointing the spotlight
That he didn't know
'Cause he didn't know me
Yeah he didn't try
'Cause once you've got a groupie
You've got 'em for life
For life, for life, for life
For life, for life, for life
You've got me for life
